

Blockchain

Blockchain is
Based on distributed
ledger technology.

Every information
processed through
the blockchain is
recorded by it.

This makes the
blockchain an ideal
technology for
cryptocurrencies.

It is transparent
and immutable.

Benefits of Staking

Active participation in the network – Stake tokens to help secure the blockchain while committing resources such as capital and uptime.

Passive income opportunity – Earn rewards by staking tokens through pools or platforms without the need for technical setup or constant monitoring.

Network security & validation – Staking helps validate transactions and maintain the integrity and security of the blockchain.

Flexible earning options – Participants can choose between active involvement or passive staking to earn consistent rewards based on their preference.

Staking

Staking is the act of holding crypto in order to receive passive rewards.

Staking allows users to stake coins from supported projects to earn rewards.

The higher the amount and time of stake, the greater the rewards.

Who We Are ?

Nexus is a community of crypto enthusiasts, traders, miners, and developers.

Our Vision

At our Staking Platform, we envision a future where anyone can participate in the decentralized economy with ease and confidence. Our platform is dedicated to empowering individuals and businesses by providing a secure, user-friendly, and rewarding delegated staking experience. We believe in the power of blockchain technology to transform traditional finance, and our vision is to bridge the gap between experienced cryptocurrency participants and newcomers alike.

We strive to make staking accessible to all, regardless of technical expertise, so that everyone can benefit from the opportunities offered by the evolving digital landscape. Our platform's core principles are transparency, security, and reliability. We are committed to maintaining the highest standards of security to safeguard our users' assets and data while ensuring consistent and dependable network participation.

Our Mission

At Nexus, our mission is to transform the way individuals and businesses participate in blockchain networks through seamless and rewarding delegated staking. We are dedicated to democratizing access to the decentralized economy by making staking simple, secure, and accessible to all. Our platform empowers users to actively engage in blockchain ecosystems, support network validation, and earn passive income with ease. Security and trust are central to our mission. We believe transparency and accountability are essential to building long-term relationships with our community.

We envision a future where staking is not only a way to earn passive rewards but also a driver of meaningful participation in decentralized systems. By supporting blockchain-based networks, we help strengthen more resilient, transparent, and equitable financial infrastructures. As we pursue our mission, we remain committed to sustainable growth and exceptional user experience. Our success is directly tied to the success of our users, and we aim to play a key role in advancing the adoption of blockchain technology worldwide.

What Does Nexus Do ?

Why Nexus ?

Unlike most crypto communities that only share crypto knowledge, Nexus shares both crypto knowledge and provides a way for the community to get rewards actively and passively.

Crypto is the future of money. With crypto adoption increasing every day, It is a great opportunity to be a part of a leading community that provides you with information, awareness, and rewards.

How Earnings Calculated

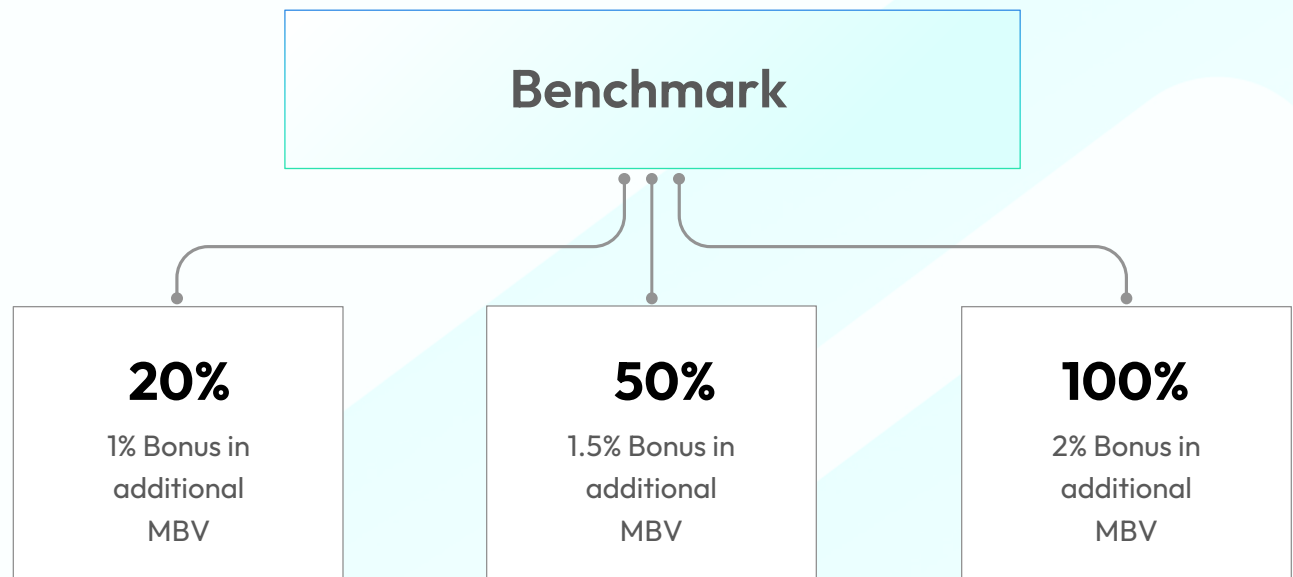

Total Earnings = GI Bonus + CS Bonus

Performance Bonus

- ◆ Every month benchmark will be updated based on highest monthly matching BV.
- ◆ If monthly matching BV more than **20%** of benchmark then **1%** will be credited.
- ◆ If monthly matching BV more than **50%** of benchmark then **1.5%** will be credited.
- ◆ If monthly matching BV more than **100%** of benchmark then **2%** will be credited.

Monthly Matching BV

Example

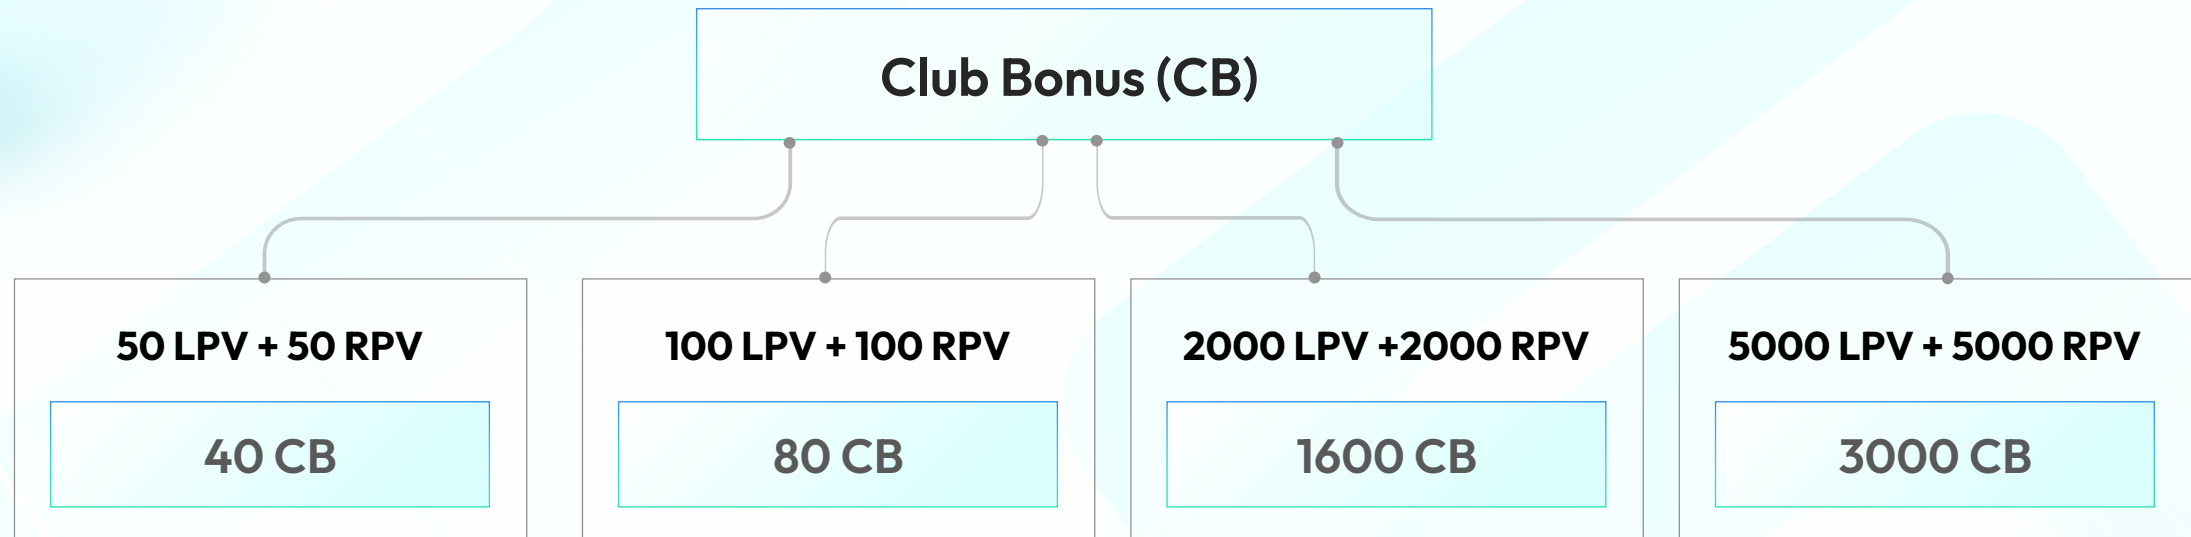

Club Bonus (CB)

The Club Bonus (CB) is calculated based on the matching of LPV (Left PV) and RPV (Right PV).

- ◆ PV (Point Volume) is the standard unit used to measure business activity.
- ◆ PV is generated and distributed to all eligible protectors.

Note

- Maximum Club Bonus allowed per cycle is **3000 CB**
- The maximum matching limit per cycle is **3750 PV**

CB = CLUB BONUS

Power Reset

01

Power Reset will void all existing balances.

02

Power Reset is a way for our members to utilize their staking to its full potential.

03

It is implemented every month end and will be notified prior to its implementation.

04

Once a Business Center is created, its BV will not be affected by Power Reset until it reaches the Believer Club.

05

Once a Business Center is created, its PV will not be affected by Power Reset until it reaches the Converter Club.

**How can members
acquire the team
benefits?**
